Forecast for Monday 31 Oct 2022

Weather: A few clear spells overnight, but mostly cloudy with rain or perhaps drizzle at times, but still the risk of a sharp showery outbreak too. Then a mostly cloudy start, with some rain or showers, but becoming drier and brighter in morning with some sunny spells breaking through in the afternoon. Cloud increasing again in evening to bring outbreaks of rain this heavy and perhaps thundery later, with some low cloud leading to hill fog on lower slopes.

Chance of cloud-free hill tops above 800m: 30% increasing to 60% in morning, but lowering to 20% in evening.

Low Cloud and visibility: Quiet extensive cloud down to 600m overnight and at first on Monday with patches down to 300 or 400m, but mainly broken cloud above 800m by the afternoon. Extensive cloud developing above 500m in evening with patches down to 300m. Moderate perhaps poor visibility at first, but becoming mainly good in morning, but becoming moderate occasionally poor in evening rain with areas of hill fog.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Strong or gale force winds on the summits, with blustery conditions, especially in or near showers in the morning.

Forecast for Tuesday 01 Nov 2022

Weather: Heavy rain clearing away overnight, but leaving a good deal of low cloud and hill fog to start the day with some mist too. Low cloud and hill fog will lift and break up a bit in morning, but heavy and perhaps thundery showers will soon break out and these will likely merge to give longer spells of heavy rain by the afternoon. Becoming drier in evening with some clear spells developing.

Maximum wind: Turning West to Southwest 20-25 gust 35mph overnight, but increasing 35-40 gusts 50mph in evening.

Chance of cloud-free hill tops above 800m: 20% increasing to 40% in morning, but 80% in evening

Low Cloud and visibility: Areas of cloud down to 300m at first, becoming mainly broken above 600m, but periods down to 400m in rain, though cloud breaking in evening. Moderate occasionally poor visibility at first, becoming mainly good in morning, but periods of poor visibility with heavy, showery rain.

Temperature: **Valleys:** Plus 11 C rising to plus 13 C
At 800m: Plus 7 or 8 C
Freezing level: Above the tops
